

## BAE Systems Approvals

- NC Machining and CNC Machining
- Paint spraying and stoving
- Non-structural adhesive bonding
- Co-ordinate measuring machine inspection and / or programming
- Minor mechanical assemblies
- Glass reinforced plastics non structural and furnishing
- Procurement of raw materials (Metallic and Non-metallic)

R05-6106 - Non-Destructive Testing – Requirements & acceptance standards for carbon fibre composites

### Special processes for F-35 Lightning II program (BAPR Listing)

2ZZP00001: Finish Specification

2ZZP00005: Drilling & machining of composite / metal stacks

2ZZP00008: Marking of F-35 parts and assemblies

2ZZP00060: Process specification for processing and quality control of fibre reinforced plastic for use in F-35

LMA-MR003: Application of class 2 grade A primer

LMA-PL026: Glass reinforced plastic parts, processing and quality control

LMA-PC001: Requirements for Ultrasonic Inspection of Bonded & Composite Structures.

LMA-PC005: Inspection Acceptance Criteria for Composite Parts & Assemblies.

2ZZP00002: Manufacture & Quality Control of JSF Non-Specific Part Family Carbon/BMI Composite Structure.

2ZZP00004: Manufacture & Quality Control of Non-Specific Carbon/Epoxy Part Families Fabricated from LMA-MA002 and/or LMA-MB002 Material.
